Silver Sponsor

The SmartMTX is proud to announce
Cybertech360 as a Silver Sponsor!

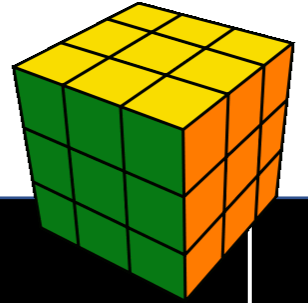

Solving The Cybersecurity Puzzle

One Piece at a Time

Segmentation & Control

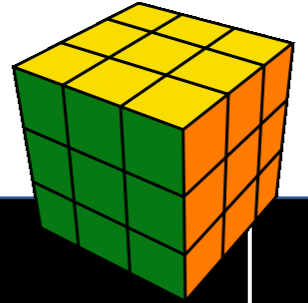

Separate critical systems and sensitive data

Implement strict access control policies

#1

Strong Authentication & Password Management

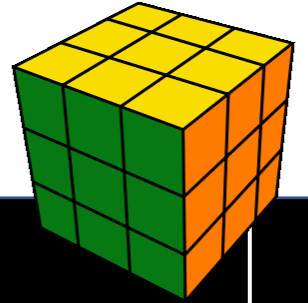

Multi-Factor Authentication

Strong Unique Passwords

#2

Patching & Updating

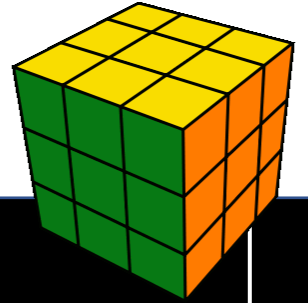

Monitor for vulnerabilities

Keep all software updated

#3

Training & Awareness

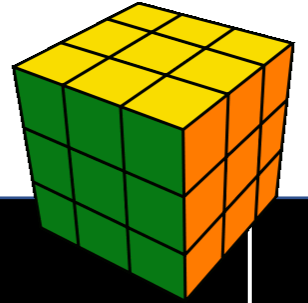

Training sessions on cybersecurity best practices

Promote a security-conscious culture

#4

Incident Response Planning

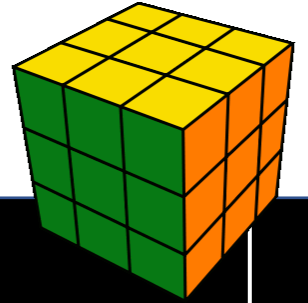

Develop and maintain a response plan

Conduct regular tests

#5

Secure Remote Access

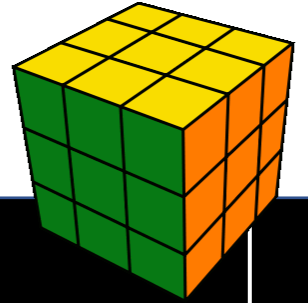

Use only secure VPNs and remote desktops

Limit remote access to authorized personnel

#6

Testing & Assessment

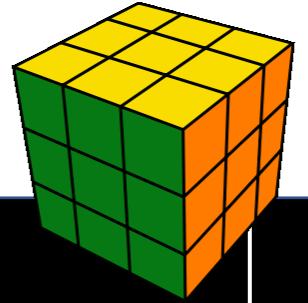

Penetration Testing

Vulnerability Assessments

#7

Detection & Monitoring

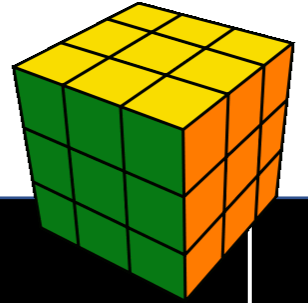

Use advanced security tools (SIEM and EDR)

Monitor network for unusual activities

#8

Encryption & Continuity

Encrypt sensitive information

Implement business continuity

#9

Time for a Conversation
